

2025/9/6(Sat)	10:00	10:00-10:20	Opening
	11:00	10:20-11:50	Free communication 1 QOL
	12:00	12:00-13:00	Luncheon Semniar supported by Kyowa Kirin
	13:00	13:05-14:20	Free communication 2 QOL/HHD
	14:00		
	15:00	14:30-16:00	"Enhancing QOL in elderly patients with ESKD: Innovations and Regional Perspectives" co-hosted with KSHHD supported by Synopex
	16:00	16:00-18:00	Session: "How to achieve high quality dialysis for the patients?" supported by TORAY
	17:00		
	18:00		

2025/9/7(Sun)	8:00		
	9:00	8:30-10:30	"Dialysis related hypotension and organ circulation" supported by NIPRO and VDC
	10:00		
	11:00	10:35-11:50	Free communication 3 HHD
	12:00	12:00-13:00	Luncheon Semniar supported by NIKKISO
	13:00	13:10-14:40	"Vascular access for HHD" supported by Mozarc Medical
	14:00		
	15:00	14:45-15:15	"New insight of BH technique" supported by Medikit
	16:00	15:20-17:20	"Current status and future direction of HHD inAsia Pacific region"
	17:00		
	18:00	17:25-18:45	"Urgent challenges for expnding HHD in Asia"
	19:00		Closing

2025/9/8(Mon)			KDIGO meeting
---------------	--	--	---------------

1	Dialysis modalities and membrane
2	On-line HDF: Japanese style or European style?
3	Long dialysis and long life
4	New insight into uremic toxins
5	PD and HD combination therapy
6	Dialysis related amyloidosis
7	Chronic limb-threatening ischemia
8	Up-to-date Vascular Access
9	New insight into SHPT
10	New insight of the treatment of renal anemia
11	Nutrition and intestinal environment
12	Exercise for dialysis patients
13	Patient-centered dialysis care
14	Holistic care for dialysis patients (EAT, ThikuTHiku)
15	Green Dialysis
16	Advance care planning and CKM
17	Clinical engineering in maintenance dialysis
18	Treatment for Cardiac complications of CKD
19	New insights of Button hole technique
20	Dialysis with electrolyzed water containing molecular hydrogen
